## REPORTS OF STANDING COMMITTEES

### Finance

Alderman Woscyznski had no report. She announced two meetings that are being scheduled regarding the budget on Monday, July 1, 2013 and Tuesday, July 2, 2013 both a 6:00 p.m. in the city council chambers.

### Public Safety

Alderman Manousopoulos had no report.

### Public Utilities

Alderman Jones had no report. "I would like to recognize the recent events that have happened in our community. I am sure that the Mayor will talk about this as well. Many of you know that our area was hit with a severe storm and the power was out for approximately three days.

I want to commend the residents who had patience and encourage those who didn't have patience during the storm to recognize that this was an act of mother nature and all of the departments in Calumet City should be commended from public works, fire and police departments and other departments that have contributed to this.

Mainly ComEd was in our community and they did a wonderful job. They set up an incident command center at 144<sup>th</sup> & Greenwood. ComEd took it a step further and many got representatives that came door to door and offered their assistance and the companies assistance. I want to recognize not only Toni Eberhardt but the many workers from ComEd that who can out and made sure the power was on. I am sure the Mayor will talk about what ComEd did in our city. Our city was the hardest hit along with Riverdale. We should be thankful that we not only had our public works employees but also ComEd. I know it was inconvenience for two days

It is important to know that we have these resources available to our residents. A step further in these severe incidents that people should know that we do have cooling centers not only is my office, the police department and then the Calumet City Public Library. Everyone should recognize that we have these resources available. I just want to thank ComEd and all the aldermen who did a good job for our residents."

### Ord. & Res.

Alderman Collins had no report.

### H.E.W.

Alderman Schneider had no report.

## Public Works

Alderman Munda: "I would like to reiterate on Alderman Jones comments. The public works department did a fine job removing trees and debris from the neighborhoods. Toni Eberhardt once again stepped up to the plate from ComEd. There were 170,000 outages over our whole region, 8,000 outages total in Calumet City. Toni Eberhardt kept the aldermen updated ever couple of hours during the storm and after the storm. She gave me updates on her computer system, how many outages were actually reported and how many were being updated and being restored as the days went through. They really went above and beyond to try and get that service repaired. It was really rather quick compared to all the outages they were experiencing region wide.

The public works department did an outstanding job on the day before the storm there was a tree that fell from old age and it was removed from a residents house on June 23 at 623 Ingraham Avenue. The crew came out with the high lift and they removed the tree from the house without further incident or damage to the property. They disposed of the tree properly and did a wonderful job for that resident.

Thank you Mayor for allowing the overtime to be put out to assist with the storm and clear the debris so ComEd can get into the neighborhoods and service the lines. Once we finish up this project of cleaning up after the storm, we will get right back to work on the foreclosures and the high grass and cleaning alley ways and debris."

## Mayor's report

Mayor Michelle Markiewicz Qualkinbush: "I would like to apologize Alderman Williams, I promised we would get the new committee assignments out and we have been extremely busy. We have been updating our software for the entire city. A lot of internal projects. I promise that our meeting on Monday that I will have finished that off and get that out to everybody so that you can get involved in the committees as well.

As I said we are getting a new software system for the entire city. I would like to ask our residents to please be patient when coming in and paying your water bill and things. We are also working on getting a new phone system up and running.

Our phone system is very antiquated. It actually hangs up on you when you call. Please be patient. The software in that phone system is extremely dated and we are in the process of updating that.

The financial team is working had on the audits and working hard on preparing the budget in preparation for the meetings that Alderman Wosczyński stated will beginning on Monday, July 1. There is a lot going on in City Hall.

Mayor's report (cont'd)

The grass doesn't stop growing, the bad weather doesn't stop coming. As Alderman Jones and Alderman Munda stated there were actually 10,000 residents in Calumet City that were out. They got about half of them up within the 12 hour period. I know some were out for a longer period of time. I thank everyone who was patient.

The city has nothing to do with that. That is ComEd and their priority system. Toni our liaison with ComEd tells me that we were number two behind Chicago in the hardest hit as it relates to that storm. Residents have to be aware that the weather has been rather tricky these days. Bad weather can come and be a little patient when bad weather occurs. The cooling centers are the police station and the library, whenever there is extreme heat or a bad storm. Those cooling centers are automatically opened. I know the police department did a reverse 911 call to let resident know it was out here.

We also started our summer youth program where we have hired over 50 youth at the public works to assist with the grass cutting and some in the police department with some issues some record scanning and things that are going on there. We got that up and running and there is a lot of things going on. I think summer is the busiest month with public works and the city. We thank all of our residents for being patient with all of this.

In relation to Ms. Johnson's statement earlier about contractors hiring our residents. There are ordinances of that sort on the book already. Unfortunately, she left the meeting. She won't hear that. When there are positions available they are posted as well as the summer youth employment jobs are posted on the internet. Look there for those postings.

Public works crews did do a great job, fire and police departments. Many trees down in that first day. The town looked dark out there with no street lights. Again, the residents were very vigilant and patient.

The city assisted with removing as many trees as we could so the guys did a great job. Thanks to Toni, she was out here half the morning updating the aldermen and looking at some issues with Bernadine Manor. The seniors were on our critical list to make sure they get up and running. Sometimes it is just a little difficult to find out where the fault is and they did work very diligently to get that addressed as quickly as they can. Thanks again Toni and ComEd and for those residents who were patient. Every effort was put forth to get the issue resolved as quickly as possible.

Thank you for your reports aldermen."
