The Illinois Yellow Dot Program could save your life.

**The Golden Hour**
The best chance for survival following a traumatic injury, occurs when those injured are seen and treated within an hour.

In the moments directly following a crash, seconds count. When you participate in the Illinois Yellow Dot Program, you are providing first responders with vital medical information. Here's what you need:

**#1 Photograph**
A photo, clearly identifying program participant, must be placed in the designated spot on the Yellow Dot Medical Card.

**#2 Personal Information**
This must include: participant's name, emergency contact, personal physician, medical conditions, recent surgeries, allergies and current medications.*

Completed form goes in your glove compartment.

**#3 Yellow Dot**
Decal must be placed on the rear-facing window on the driver's side. This alerts first responders of vital medical information that can be found in the glove compartment.

*Please complete additional medical cards for other drivers or passengers.
