

CALUMET CITY

945 State Street Calumet City, Illinois 60409

Water: 708-891-8155

Cross Connection Control Survey

THIS SURVEY IS REQUIRED BY THE ILLINOIS ENVIRONMENTAL PROTECTION AGENCY
AND MUST BE COMPLETED BY ALL CALUMET CITY WATER CUSTOMERS

The IEPA requires that all water systems in the State of Illinois have a cross connection program. Backflow occurs when a drop in pressure causes the water to flow back to the city system which could allow contaminated water to flow back into your drinking water. Thus, we regulate the program requiring backflows in the city to protect both the integrity of the Cities water supply as well to protect our customers water.

PLEASE RETURN BY SEPTEMBER 1, 2026
